
Reggae Bloodlines: In Search Of The Music And Culture Of Jamaica Book Pdf

Category:Jamaican styles of music Category:Gospel music genres Category:Jamaican music genres Category:Jamaican culture[Genetic alteration of 8p11.2-p12 in human cancer]. To explore the genetic alteration of the 8p11.2-p12 region in human cancer and its impact on prognosis and treatment. We collected the gene amplification of 8p11.2-p12 from tumor samples of human breast, cervical and colon cancers, then examined the correlation of the alteration and the prognosis and the treatment of the disease. The eight genes, including GLTSCR1, JAG1, MAST1, SFRP1, SPTBN1, TNFRSF21, ZC3H7C and ZMYND15 are frequently involved in tumorigenesis of these three types of human cancers. The alteration of 8p11.2-p12 is a common event in human cancer and it may be used as a molecular marker to diagnose cancer and predict the prognosis of the disease./ * * Copyright (c) 2008, 2009, 2010 QLogic Corporation.
