The KEYMACRO file manager allows you to create, edit, delete and copy files on your mobile. CREATE, COPY, DELETE: It allows you to create, copy, delete and delete all files on your SIM card, on the network and on the filesystem. DELETE NAMES: This is a very powerful feature allowing you to delete all the files named in a list provided to you. FOLDER-LIST: View a list of folders on your SIM card, if your phonebook is on the card. SEARCH: This allows you to search inside each folder for a file name you have specified. RENAME: This allows you to modify the name of a file, folder or even of a whole directory. MODIFY: This allows you to modify the data of a file, folder, whole directory or even the whole file system. ACTIVATE, DEACTIVATE, LOAD AND ACTIVATE PIN: With this powerful function you can change the PIN. With an activation of PIN1, you can restore the SIM card in its initial state. With an activation of PIN2, you can restore the SIM card in its initial state. You can use this feature for one hour. SIM CARDS LIST: You can display a list of the SIM cards that are stored on your device, in order to store them later on your smart card reader or your computer. SINGLE FILE CLIPPING: This allows you to edit a file which is shared on the SIM card filesystem. VERBOSE REPORT: You can view a report of the actions performed on each file and folder with the option to print it. MODERATOR: You can view your email and start a new one by

providing your phone number and your mail program. SCAN: You can use this function to scan the directory of your SIM card. You will be able to select the directory to scan. CONTROL NETWORK: You can control the network using the key "CTRL" (on the keyboard). This key will control the network to switch off or on. GRAPHICAL VIEW: You can activate a graphical view of your mobile, the files stored on your mobile and the SIM card directory. PROVIDE DATA: You can use the key "ALT" (on the keyboard) to send an SMS to the other phone. TERMINAL: You
