

INSTANT SHADE  
UMBRELLAS

**Stylish Corporate Umbrellas for Cafes,  
Restaurants, Beer Gardens and Pubs**

**Corporate umbrellas** are ideal for cafes, restaurants and shop fronts that require an elegant look.

These outdoor umbrellas come in varied colours and can be installed permanently or on mobile bases, as they have anodised aluminium frames. Digital printing and screen printing are available on our corporate umbrella range.

Our corporate umbrellas are available in different styles:

## **Cantilever Umbrellas**

Cantilever umbrellas come with a side post, letting you use the canopy's shade throughout the day. As the sun's direction changes, a cantilever umbrella can easily rotate and, in some cases, be tilted to block the afternoon sun. They are ideal for areas such as a pool and spa or an outdoor space where more than one seating is required.

# **Heavy Duty Telescopic Giant Umbrellas (Nova HD)**

Our Nova HD giant telescopic, heavy-duty corporate umbrella is robust, beautiful, wind-rated and provides maximum shade coverage. They are fully retractable and removable, and perfect for exposed areas. Nova HD giant telescopic corporate umbrellas can be installed on existing concrete slabs, timber decking, or in lawns.

# Permanent / Structural Umbrellas (Skyspan)

Skyspan umbrellas are stylish corporate umbrellas made in Australia, withstand strong breezes of up to 150km/h, and are designed to last. Skyspan **corporate umbrellas** are 100% weather- and UV-proof and are available in an array of colours, sizes, and mount options, including cantilevered, centre-mounted, retractable, and portable.
