

INSTANT SHADE
UMBRELLAS

**Invest in High-quality Cantilever
Umbrellas to Bring Style and Shade to
Your Outdoor Space**

Instant Shade Umbrellas offers a leading range of **cantilever umbrellas** in Australia, designed to make outdoor time simple and relaxing. Side-post canopies free up the full area under the shade, which is ideal for dining sets or compact patios. Choose a model to suit your space and light conditions, then angle and rotate to keep the cool where you want it. Clean lines and quality materials give lasting performance in Australian conditions.

Models at a Glance:

- **Paraflex Wall Mount Umbrella:** Compact wall-mounted design that fits tight areas with no base taking up floor space. Flexible arm tracks the sun for tidy shade on balconies and courtyards.
- **Aurora Cantilever Umbrella:** A stylish, lightweight build with unlimited tilt positions. Works on a weighted moveable base or with semi-permanent fittings for strength in breezy spots. Great for smaller zones with a crisp nautical look.
- **Eclipse cantilever umbrella:** Heavy duty construction for larger or more exposed settings like big pools and high decks. Broad canopy sizes deliver generous cover with an engineer wind rating up to 65 km/h when installed.

Why Choose Cantilever Umbrellas?

- Full use of space under the canopy with no central pole
- Easy rotation and tilt to chase shade through the day
- Options for compact patios and generous outdoor areas
- Semi-permanent fittings available for added stability
- Designs that pair clean looks with proven durability

Ready to enjoy cooler afternoons in colour-rich shade?
