Orange Circular Cable Built for Reliable Installs in Every Environment

www.wwcables.com.au

Looking to simplify your next build with a cable that never lets you down? World Wire Cables' **orange circular cable** brings you the ultimate blend of safety, efficiency, and robust design, trusted across the industry for both new projects and upgrades. With a construction that features 450/750V plain annealed stranded copper conductors, you benefit from reliable strength and excellent conductivity.

The advanced PVC V90 insulation and tough PVC 5V90 sheath deliver impressive resistance to moisture, wear, and harsh environments. Colour-coded cores are protected by a bright orange sheath, making installation and maintenance a breeze.

This versatile cable is perfectly suited for use in buildings, industrial plants, and anywhere mechanical damage is not a risk. It's approved for both indoor and outdoor applications, whether enclosed in conduit or set securely in an underground duct. From lighting and power circuits to general wiring, the orange circular cable adapts easily to your needs.

Why Choose Us?

- Every cable undergoes rigorous quality checks for total peace of mind.
- Fully compliant materials make meeting regulations simple.
- Distinct coloured cores help you identify connections in seconds.
- Suitable for a wide range of installations, from commercial fit-outs to complex industrial sites.

Our team is friendly, highly skilled, and always ready to help you find the right solution.

Fast response on quotes and fast delivery, keeping your projects moving.

Loyal customers trust us for consistent supply and dependable after-sales care.

We're passionate about sharing our expertise, helping you specify just the cable you need.

Let's make your next project smoother and safer. Get in touch for a friendly chat and a fast quote!
