

Supply Chain Finance Enhance Efficiency Using CredAcc's No-Code Platform

CredAcc

CredAcc's no-code Loan Origination and Loan Management platform provides [Supply Chain Finance](#) lenders a flexible and automated solution to digitize lending workflows. The drag-and-drop configurator allows lenders to create onboarding, credit underwriting, approval, disbursement, and repayment workflows quickly without coding. ERP integration supplies access to up-to-date supply chain financial data, enabling precise credit risk evaluation and portfolio monitoring. Compliance and audit tools embedded in the platform reduce regulatory risks and operational errors. Banks and NBFCs can accelerate loan processing, reduce operational costs, and scale SCF lending effectively. Book a demo today.
