## Common Issues & Fixes

### App deletion doesn't cancel subscription:

If you think just deleting your app from your device will cancel the subscription, then it's not possible. Deleting the app will only remove the account from your device, but it's still active in your name, with your payment details added.

### Subscription not found error:

Sometimes you notice a subscription error when trying to access the account from the wrong source. In such a case, identify the subscription source and then initiate the cancellation steps on the same platform.

### No subscription button:

Finding a direct button to cancel the Disney Plus subscription is a waste of time, because that's not available. You have to visit the official Disney Plus website and follow the steps carefully.

## Last Words!

Choose the right billing source to make changes to your Disney Plus subscription. If you want to cancel, you can't do it directly all the time; however, the right source (whether direct or via a third party) needs to be selected.
