Smart productivity tools for job alerts chrome extension for freelancers

Boost freelance productivity and never miss opportunities with Flickautoswitch **Job alerts chrome extension for freelancers** that switches tabs instantly so you can respond faster to new client messages and jobs.

Chrome Extension for Freelancers

Automatically Switch Tabs To Freelancer Active Platforms On New Job Notifications

What is Flick?

Flick is an essential Chrome extension for freelancers who work on Freelancing platforms like Upwork, Freelancer, Fiverr etc. It instantly switches to the Freelancer platform active tabs whenever a new job or new client message alert appears and if you are on anothe tab.

How It Works:

✅ Detects job pop-ups or unread notifications in your Freelancer active platforms tab

✅ Auto-switches to the tab instantly, even if you're working elsewhere on any other platforms like Youtube , Instagram etc.

✅ Works whether your Freelancer tab is active or in the background

✅ Lightweight & fast—doesn't slow down your browser

Why Use Flick?

✅ Stay ahead of competitors – Apply faster & win more projects

✅ Saves time – No need to check and refresh notifications manually

✅ Boosts productivity – Focus on your work while Flick handles the tab switching

Features:

✅ Auto-tab switching for Freelancer job pop-ups   Works even when Chrome is in the background of another profile

✅ On/Off switch for full control

✅ Typing something important? it will switch only after 5sec once you are done typing.
