Most folks spend ages obsessing over gear ratios or carbon frames, but the real magic happens right where you meet the pedals. BikeZone knows that a dodgy pair of boots can ruin a perfectly good Saturday. We stock the **cycling shoes** that keeps you moving without those annoying hotspots or that pins-and-needles feeling.

THE REAL DIFFERENCE

We've teamed up with heavy hitters like Bont and Fizik. These brands have been around the block, perfecting things since the mid-nineties. We're talking Italian designs that use Aeroweave to keep things breezy or GORE-TEX to handle a bit of rain. When you pick up some cycling shoes from us, you get gear that handles the grit.

- Lightweight road options for those who want to fly.
- Gravel models for when you need to jump off and walk a bit.
- Wide fits for people who need extra room to breathe.
- Winter gear to keep your toes from turning into ice blocks.

FINDING THE RIGHT PAIR

Look, a shoe that's too tight is a nightmare, and one that's too loose means you're wasting heaps of energy. We have a massive range of cycling shoes in different sizes and every colour you can think of. It's about getting that snug fit so every bit of effort goes straight into the road.

Well, why wait for the next blister to pop up? Pop into the shop or check out the website to grab your new cycling shoes. Your feet will thank you for it.

Grab your pair at [BikeZone](https://www.bikezonefitzroy.com.au) now!
